Semi-permanent Make-up

90% of women use make-up every single day. Whether it's a simple slick of lipstick or a dash of mascara, make-up undoubtedly boosts our confidence. However, the hectic pressures of modern day living makes looking and feeling our best difficult to maintain.

Semi-permanent make-up gives a beautiful flawless finish by enhancing our natural features, there is no more endless re-applying of lip liner, lipstick, eyebrow pencil and eyeliner.

Is it for me?

Semi-permanent make-up is perfect for any woman irrespective of age. The natural finish of the make-up makes it ideal for swimmers, holiday-makers, sports enthusiasts and simply anyone wishing to permanently enhance their natural features.

Treatment Overview

Many women worry that semi-permanent make-up may appear obvious, the advanced and innovative Fame technique of micro-pigmentation offers a very natural defined look.

Frequently Asked Questions

Q What does the treatment involve?

The process involves infusion of hypoallergenic pigment placement in the dermal layer of the skin. A topical anaesthetic will be used to reduce any levels of discomfort. The treatment is completely safe and meets stringent codes of hygiene practice.

Q Do you have examples I can see?

Consultation is an important part of the whole process and an extensive portfolio will be available.

Q What if I have an allergic reaction?

You will be allergy tested 24 hrs before the treatment.

Q How long does the make-up last?

The make-up remains in the skin for a number of years and will fade with time. Refreshers are advised, once a year, to maintain definition and colour.

Q What colours do you use?

You will be colour matched to soft subtle shades of waterproof, longer-lasting mineral based pigments to suit your hair and skin tone.

Semi-Permanent Brows & Secret Liner

Brows

This is a perfect treatment for over-plucked eyebrows or anyone who requires correction and definition. Eyebrows create important framework for the face. Brows with no or little definition often look lost.

Brows can also be re-aligned and lifted to give a more youthful appearance. It is a fabulous anti-aging secret of many celebrities.

Secret Eyes

Semi-permanent eyeliner creates a naturally defined look to the eyes and gives the illusion of fuller, thicker lashes. This will put an end to embarrassing make-up smudges.

Glamour Eyes

A striking eyeliner effect, more detailed, available with a flick.

Glamour Eyes

Lips

This is simply a “must” for those wanting to define the overall shape of the lips. A simple lip liner application with semi-permanent make-up also eliminates all problems associated with lipstick bleeding.
