TRAINING

Cherry Peel Facial

Kim has recently been training in the NEW Cherry Peel Facial. Ideal for open pores, fine lines & wrinkles, pigmentation and a skin type lacking in radiance.

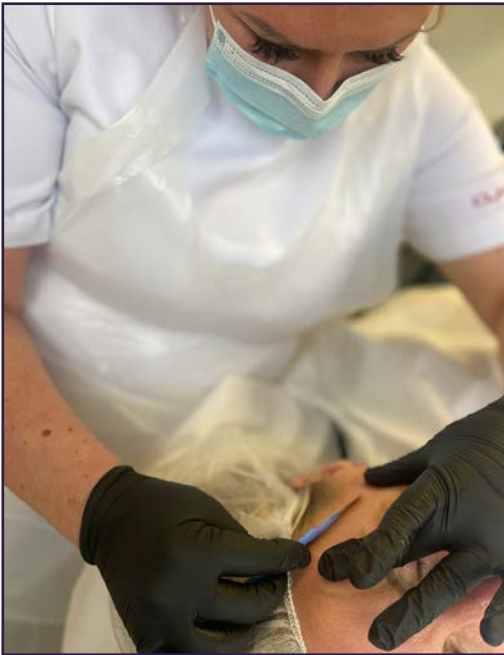

NEW Skin Cherry Peel Treatment

The Skin Cherry Peel Treatment is a rejuvenating treatment that promotes the collagen formation while inhibiting uneven skin tone, addressing acne scars, pigmentation and age spots typically found on the face.
The natural source peel encourages cellular respiration while removing dead skin cells. Skin is stimulated encouraging synthesis of collagen which fills fine lines, acne scars and wrinkles for a more uniform, softer, smoother appearance.
